PAGID

Pagid – Tomorrow's friction today

Die Bremstechnologie der Zukunft / Technologie de freinage de demain déjà aujourd'hui / La tecnologia frenante del futuro / La tecnología de frenos del futuro

Through the years a philosophy of quality and performance has ensured Pagid has evolved into the choice of vehicle manufacturers globally. Pagid has a strong history and earned its reputation with vehicle manufacturers like VW Group, DaimlerChrysler, Opel/Saab and Porsche.

Leading the field in both O.E. and aftermarket friction development, Pagid is working in partnership with the world's leading brake and vehicles manufacturers for high performance cars.

Pagid verbindet Tradition mit Temperament. Und bietet eine O.E. Qualität für allerhöchste Ansprüche. Kein Wunder also, dass Fahrzeughersteller wie VW, Audi, DaimlerChrysler, Opel/Saab oder Porsche schon lange auf Pagid schwören.

Pagid entwickelt High Performance-Bremsbeläge, die auch die stärksten PS-Boliden sicher zum Stillstand bringen.

Pagid associe tradition et tempérament. Et offre des pièces de qualité O.E. pour les plus hautes exigences. Ce n'est donc pas étonnant que des constructeurs de véhicules tels que VW, Audi, DaimlerChrysler, Opel/Saab ou Porsche soient des clients fidèles de longue date de Pagid.

Pagid développe des garnitures de frein haute performance qui freinent efficacement les bolides CV.

Coniugando tradizione e performance e offrendo la qualitá del primo equipaggiamento, non stupisce che case automobilistiche come VW, Audi, DaimlerChrysler, Opel/Saab o Porsche si affidino a Pagid da lunga data senza riserve.

Pagid infatti sviluppa pastiglie freno ad alta prestazione, in grado di arrestare in modo sicuro anche i mezzi più potenti.

Pagid combina tradición y temperamento. Ofrece una calidad de equipo original para las máximas exigencias. No es de extrañar, por lo tanto, que fabricantes de vehículos como VW, Audi, DaimlerChrysler, Opel/Saab o Porsche apuesten desde hace tiempo por Pagid.

Pagid desarrolla forros de freno de alto rendimiento que detienen incluso a bólidos de máxima potencia.
